# SITUATION

The Coopies Lane Industrial Estate lies to the south east of Morpeth Town Centre close to Morpeth railway station.

The building itself fronts onto Coopies Way, the principal roadway through the estate and is in an area of mixed commercial uses including trade counters, car showrooms and workshop uses.

Please refer to the attached plans and map for further detailed information.

# **DESCRIPTION**

The property comprises a mixed office and industrial building which although originally constructed for a single occupier has more recently been sub divided to provide two units in the main building and three separate lockup workshop/garages to the rear.

To the front of the property there is a two storey brick built office with a pitched artificial slate covered roof. The office has an attractive façade with double glazed powder coated windows and internally it provides a general office, kitchen and single WC to the ground floor area along with a separate stores area which is accessed via an electrically operated roller shutter loading door.

At first floor level there are three private offices.

To the rear of the office block is a rectangular shaped workshop which is of brick construction with a timber trussed roof supporting corrugated asbestos cement sheeting. The workshop is split long ways to provide two segregated areas part of which is occupied by Morpeth Welding and their area contains a small office and a single WC in addition to which they have a roller shutter loading door to the side yard area.

To the rear of this workshop are three lockup garage units also of brick construction with flat mineral felt roofs and roller shutter loading door access.

Externally there is a small yard area to the south side of the property which is partly surfaced and enclosed by security fencing with an access gate. There is also a small forecourt to the front of the premises providing a limited amount of car parking.

# **SERVICES**

The property benefits from all mains services including a three phase electricity supply. The only fixed form of heating to the premises is to the office block which is provided by way of a gas fired combi boiler serving panelled radiators.
